Parts List:

- ① Mirror Cover - DS
- ② Mirror Cover - PS

Installation Instructions:

1 – Begin by using your hand to pry up and pop out the inner edge of the lower mirror cover, as shown below in **Figure 1**. With the inner edge popped out pull the rest of the lower cover off, as shown in **Figure 2**.

2 – With the lower cover removed, place your hand where shown below in **Figure 3**, hooking your fingers under the upper mirror cover. Pull outward to release from the clips shown in **Figure 4**.

3 – Take your new mirror cover and line up the clips with their holes on the mirror body, shown above in **Figure 4**. Then using both hands, press the cover on until it snaps into place.

4 – Last, take your lower mirror cover that was removed in step 1 and line the clips up before pressing it back into place. It should snap back in as the mirror cover did

5 – Repeat steps 1-4 on the opposite side of your vehicle.

6 – Your installation is complete, enjoy your new OLM mirror covers!
